

Dear All,

July 22, 2026

Announcement Regarding Network Scanner Tool Lite

Thank you for your continued cooperation.

We would like to announce the release of Network Scanner Tool Lite.

Please share this information with the relevant parties.

■ Software : Network Scanner Tool Lite Ver.2.1 (Build 2.1.0.2)

■ Distribution : Sharp Canada Website

■ Release Date : July 24, 2026

■ Major Changes : To enhance security, the following specification changes will be made for FTP connections used for receiving scanned data.

- Anonymous FTP logins will no longer be supported.
- A user name and password will be required for FTP connections.
- The minimum FTP password length will be changed from 6 to 8 characters.

Note: No user configuration changes are required for this specification change.

■ Miscellaneous : The following older version will no longer be available on the Sharp Global Website upon release of the new version.

- Network Scanner Tool Lite Ver.2.0
